Opportunities and Threats

Opportunities

Music Business

Music – Physical B2C

The Primary target market for Company's catalogue music is 40+ age group. The research has confirmed the need of this group for a non-techie convenient way to consume music. Tapping this demand, Saregama is launching a range of physical products to satisfy this unmet demand, which is expected to contribute 40% growth to Music vertical revenue in coming year.

The first product offering of Music Cards with 24 SKUs priced at ₹ 600 (India) / \$15 (USA/ Canada) taps replacement demand of CDs and in-car consumption of music. Over 2000 brick-n-mortar retailers have been networked and all leading e-commerce partners have been brought on board as partners.

Carvaan is Company's next big product. With 5000 embedded songs and bluetooth / USB connectivity, Carvaan becomes the digital audio player of home. This product is also being positioned as a gifting proposition. With launch price of ₹ 5990, the product is getting retailed through 5000 electronic retail outlets through distributor model; and e-commerce outlets directly. Many other new innovative retail products are in pipeline.

The Company launched its specialized Apps offering Classical & Devotional Music with differentiated content. These apps have been made available only to paid subscribers without any dependence on advertisements. As expected, these apps are gradually gaining patronage of the consumers and are expected to garner revenue growth with App business progressively going for paid model. Company's own web store – Saregama.com remains popular destination for discerning consumers to buy Company's popular catalogue.

Music - Digital B2B

With the increase in the number of smartphones and data consumption, more and more International OTT players entering into India and the Domestic players like Telecom service providers launching their own OTT services, there offers a strong growth opportunity for the Company's catalogue business. As per the KPMG India - FICCI – Indian Media and Entertainment Industry Report 2017, the year 2016 witnessed increase in volume of music streaming worth around 50-60 million active monthly users using the applications. Riding on the patronage for Company's popular catalogue, the OTT streams for Company's content grew by 37% last year and is expected grow further with ease of consumption. While music products like CRBT, WAP, IVR etc offered through Telecom sector dropping primarily on account of industry de growth in WAP vertical of business, the Company has kept its share steady with proactive marketing activities.

Music Publishing Business

The Expansion of Smart cities and growth of Tier 2 and Tier 3 cities add to the growing avenues of Publishing Music Business. The new copyright law has broad-based the possibility of drawing higher publishing revenue from newer avenues and will generate yields from the areas not monetized hitherto. The Company has also increased its broadcasting TV licenses to more number of networks including the Regional markets. More Brands have started to use evergreen catalogue for TV sync commercials to promote and position their Brands in the market. The year 2016-17 has been second year in row where the music publishing business of the Company grew smartly and is expected to keep momentum in coming year.

REPORT OF THE DIRECTORS (contd.)

TV Software Business

National TV

After turning profitable last year, the National TV is exploring new programmes with the top GEC channels based on its successful past programmes. More TV channels and emergence of Video platforms like Amazon and Netflix are providing opportunities for growth. These platforms are looking for differentiated content and willing to experiment with new genres and style of shows.

South TV

The Business continues its leadership in Tamil Sun Network channels in terms of its number of hours of weekly production. The growing reach of the Sun Network and bigger advertisement budgets for the Tamil markets are providing opportunity for growth of the business.

Publication Business

The focus of “Open” magazine continues to target the top strata of the society as the market is evolving with top notch Brands wanting to reach out to such high intellectual readers; providing strong opportunity for the business.

Threats

Music Business

Legitimate consumption of Music still covers smaller percentage of overall Music consumption. Piracy continues to be a major deterrent of growth. The consolidation in Telecom could impact the revenues. New Music Content consumption on growing digital platforms is significantly higher than the evergreen catalogue would require high level of marketing activities to increase market share. The cost of New Music content has witnessed substantial escalation with more players jumping into the fray-requiring payment of extra premium to acquire new content.

Music Publishing Business

The New Copyright laws and formulation of new rules and regulations will require new methods of arriving at commercials of the licensing for music publishing.

TV Software Business

Industry continues to remain highly competitive with entry of more independent producers and channels taking longer gestation for launch of new projects. Increase of Artiste and Talents cost, Channel demanding higher production values without commensurate increase in the cost and Advertisers preference to growing Digital mediums continues to pose business difficulties.

Publication Business

The magazine market having 60+ genres catering to large base of readers continues to face challenges to gain market share and provide value addition to both its readers and advertisers.

Outlook

Strategic direction

The Company strategically will remain a pure play content player capitalising on the data boom globally, with focus on higher monetisation of existing IPs - 1.2L owned audio songs and over 3000 hours of Tamil serials - through greater presence on all 3rd party digital and TV platforms. The thrust will be on launch of Saregama branded physical products with embedded music. Being pure play content player, the investments will be towards building of new IPs through new film music acquisition across Hindi, Tamil & Marathi languages, TV programs in Tamil language where IP stays with the Company and production of controlled cost thematic films targeted at youth with primary exploitation on digital platforms.

Music Business

Music Digital Business

The revenues from OTT, YouTube and Telecom sectors are expected to remain steady. The entry of new players in OTT space like Idea, Google Play, Apple and Jio will act as growth drivers.

Music Retail Initiative

Company’s prestigious product - Carvaan will get rolled out early next year. The sale of Music Cards will grow with the help of width & depth of domestic distribution and foray into US market. The business from Apps - “Saregama Classical” and “Saregama Shakti” - will draw revenues from the steady subscriber base. The Company’s own digital store - Saregama.com will focus on download segment.

New Audio Music Content

The Company has returned back to acquisition of new Hindi and Tamil film music. The strategy is to start slow, vet assumptions and start building up the slate over time. Alongside the acquisition, the focus will be on creating fresh content for Classical and devotional music.

REPORT OF THE DIRECTORS (*contd.*)

Music Publishing

The local Broadcasters and Advertisers are going to act as major contributors to music publishing business. The Tier 2 & 3 cities will provide opportunity for growing Public Performance income and royalties from new radio stations. Internationally, the strong sub publishers network will ensure steady publishing income.

Television Software Business

The South TV business will maintain its leadership thru own programmes where IP stays with the Company and third party marketing programmes. Like present, the revenue will be through advertising FCT sale.

Digital Films [Yoodlee Film]

The explosion in data consumption is resulting in growing demand for 'exclusive' content from all OTT players and TV channels. Without keeping starcast as driver of the project, the Company will produce films targeted at 18-30 yrs segment and international audience; which will be based on strong themes and stories with tightly controlled budgets. These movies will be produced in multiple languages with liberal use of Saregama's music for its marketing. Keeping upfront talent cost low and offering profit sharing, the risk will be largely hedged. The approach is to offer portfolio of the films; about 12 per year. The revenue model is based on limited theatre release in top 8 cities, OTT platform licensing and TV channel licensing. The first film is getting rolled out early next year.

Publication Business

'Open' magazine has already created its own readership base in the industry. This is expected to augment revenue generation from advertisement and consolidate its readership base.

Risk and Concerns

The new Music and Video driven content occupying higher shelf space on all streams in comparison to pure Catalogue would demand high level of marketing efforts to take the catalogue products to the consumers. Pursuant to the amendments to the Copyright law in June 2012, the new Copyright Board rules and regulations are awaited by the industry for last few years. This time gap at times poses difficulty to various the stakeholders of the industry to decide strategic direction. Piracy continues to be key issue impacting growth of business. Television Channels' demand for low cost high quality content and Advertisers lowering FCT rates need to be handled continuously. Retail products getting classified under higher GST tax brackets remains concern. As regards Publication magazine business, building up volumes and increasing ad rates in the highly competitive environment remains a challenge.

REPORT ON CORPORATE GOVERNANCE

I. Company's philosophy on Corporate Governance

Corporate Governance encompasses laws, procedures, practices and implicit rules that determine the Management's ability to make sound decisions vis-à-vis all its stakeholders - in particular, its shareholders, creditors, the State and employees. There is a global consensus on the objective of Good Corporate Governance: Maximising long-term shareholder value.

Since shareholders are residual claimants, this objective follows from a premise that in well-performing capital and financial markets, whatever maximises shareholder value must necessarily maximise corporate value and best satisfy the claims of the creditors, the employees and the State.

A company which is proactively compliant with the law and which adds value to itself through the Corporate Governance initiatives would also command a higher value in the eyes of present and prospective shareholders.

Saregama India Limited therefore believes that Corporate Governance is not an end in itself but is a catalyst in the process towards maximization of shareholder value. Therefore, shareholder value, as an objective, is woven into all aspects of Corporate Governance – the underlying philosophy, the development of roles and the creation of structures and continuous compliance with standard practices.

Corporate Governance, as a concept, has gained considerable importance of late, primarily because of the proposal to enshrine many of the accepted good governance principles into corporate law. The Companies Act, 2013 ('the Act') and the Securities & Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015 ('the SEBI Regulations') have strengthened the framework of Corporate Governance for India.

Saregama India Limited is committed to good governance practices by conducting its business in a transparent manner and creating long term sustainable shareholder value.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Pursuant to Section 133 of the Companies Act, 2013 read with Rule 7(1) of the Companies (Accounts) Rules, 2014, till the standards of Accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements are prepared to comply in all material aspects, with the accounting standards notified under Section 211(3C) of the Companies Act, 1956 [Companies (Accounting Standards) Rules, 2006 as amended] and the other relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in Schedule III (Division I) to the Companies Act, 2013. (b) Use of Estimates

The preparation of the financial statements in conformity with the generally accepted accounting principles in India requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities as at the balance sheet date, the reported amount of revenue and expenses for the period and disclosure of contingent liability as at the balance sheet date. The estimates and assumptions used in the financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Auditor's Responsibility

3. Our responsibility is to express an opinion on the Holding Company's and its subsidiary companies' and jointly controlled entity's incorporated in India, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the

Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. 5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's and its subsidiary companies' and jointly controlled entity's incorporated in India, internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary companies and jointly controlled entity, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies and one jointly controlled entity, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not qualified in respect of this matter.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS for the Year Ended 31st March, 2017

1 Significant Accounting Policies

(a) Basis of the Preparation of the Financial Statements

These Consolidated Financial Statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis, except for certain Tangible Fixed Assets which are being carried at revalued amounts (as indicated in Notes 9(i),9(ii),9(iii) and 9(iv)). Pursuant to section 133 of the Companies Act, 2013 read with Rule 7(1) of the Companies (Accounts) Rules, 2014, till the standards of Accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these consolidated financial statements are prepared to comply in all material aspects, with the accounting standards notified under Section 211(3C) of the Companies Act, 1956 [Companies (Accounting Standards) Rules 2006 as amended] and the other relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current or non current as per the Group's normal operating cycle and other criteria set out in Schedule III (Division I) to the Companies Act, 2013. Based on the nature of products / service and the time between the acquisition of assets for processing / providing the services and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current, non current classification of assets and liabilities.

(b) Use of Estimates

The preparation of the consolidated financial statements in conformity with the generally accepted accounting principles in India requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities as at the balance sheet date, the reported amount of revenue and expenses for the period and disclosure of contingent liability as at the balance sheet date. The estimates and assumptions used in the consolidated financial statements are based upon managements' evaluation of the relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from estimates.

(c) Fixed Assets [Property, Plant and Equipment - (PPE)]

Revaluation of Land is made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. When the fair value differs materially from its carrying amount, the carrying amount is adjusted to the revalued amount. The fair value is determined based on appraisal undertaken by a professionally qualified valuer.

Aforesaid technical evaluation carried out in 2014-15 have been revisited by the Group's management during the year and no change to the evaluated life considered necessary.

Feature Films / Music Copyrights are amortised on a straight line basis over a period of 1-10 years. The Group reviews the expected future revenue potential at the end of each accounting period and recognises impairment loss, where required.
