- 3 2 SELF THREAD SCREW (4*30) 
- 4 4 SELF THREAD SCREW (2*6) 
- 5 1 WALL MOUNT PAPER TEMPLATE 
- 6 2 PLASTIC FOOT & SELF-ADHESIVE RUBBER FOOT 

WALLMOUNT CARVAAN MUSICBAR

Step 1: Fix the screws

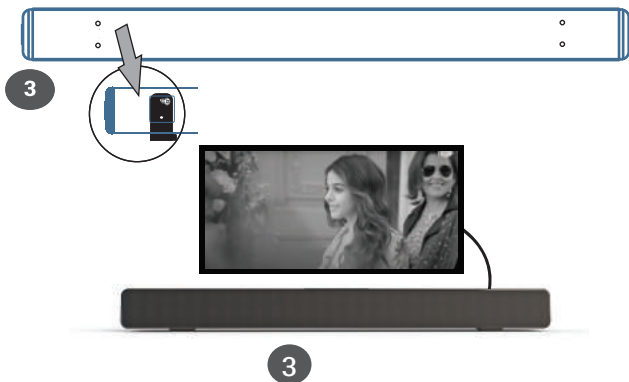

Stick the paper template in the installation kit using a tape on the wall. Mark the wall mount bracket hole location given on this template using a pen on the wall. Drill only centre hole at marked location and fix the screws (4*30) along with plastic fasteners provided in the kit.

Note: ensure that the paper template is aligned correctly in order to avoid misalignment of the screws

Step 2: Connect the brackets to the Carvaan Musicbar

The installation kit comes with 2 brackets - one for each end of the Carvaan Musicbar. There are four holes (2 for each bracket) on the bottom of the device. Align the holes on the device and brackets. Once aligned, fix the two using the screws (2*6) provided in the wall mount kit. Your Carvaan Musicbar is now ready to be wall mounted.

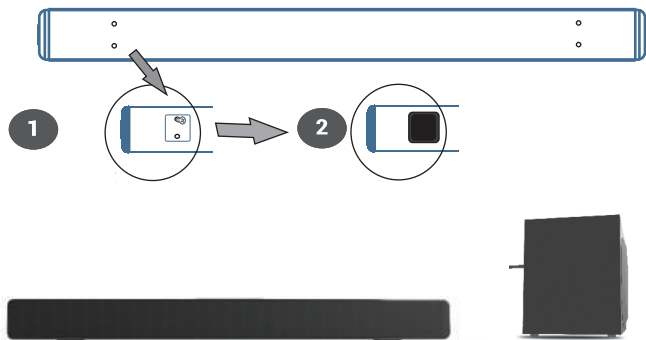

Step 3: Hook the Caravan Musicbar on the wall

Hook the brackets on the screws drilled on your wall. Connect HDMI cable before hanging.

PLACE YOUR CARVAAN MUSICBAR ON A TABLE TOP

Step 1: Fix the plastic foot pegs

The installation kit comes with 2 plastic foot pegs. There are four holes (2 for each foot peg) on the bottom of the Carvaan Musicbar. Align the holes on the device and foot pegs. Once aligned, fix the two using the screws (2*6) provided in the installation kit.

Step 2: Place the rubber foot

The installation kit comes with 2 rubber foot. Peel the plastic on the same and paste one on each foot peg.
