# Solar industry awaits decision on safeguard duty, BCD

**VIKAS SRIVASTAVA** Mumbai, July 24

THE DIRECTORATE GENERAL of Trade Remedies (DGTR) has recommended extending the safeguard duty on solar panels and cells, scheduled to expire on July 30, by one year. While it is not clear whether the finance ministry will

accept the recommendation, it has the option of acceding to the industry demand for a minimum 20% basic customs duty (BCD) on to protect

Chinese imports. The government had levied safeguard duty on imported solar cells and modules from China and Malaysia in 2018 for two years. The ministry of

local manufacturers from cheap

power and ministry of new and renewable energy (MNRE) have been keen on introduction of 20% BCD as a longterm solution to curb influx of solar panels and cells from countries like China.

Singh has said at various forums in the recent months that the BCD will be introduced from August 1. However, the DGTR has rec-

ommended to extend the

Union power minister RK

safeguard duty by one year at 14.9% in the first six months and 14.5% in the remaining six months. A senior MNRE official told *FE*, that the ministry of finance will have to notify the recommendations before July 30 for it to be effective. "We are working with the

ministry of finance and have conveyed our recommendations of BCD as a long-term option against the temporary measures like safeguard duty to protect the domestic industry," the MNRE official said.

The DGTR, in its notification, said imports of panels and cells have not only continued to cause serious injury to the domestic industry but also threaten to cause serious injury to the domestic producers of panels and cells. "It will be in the public interest to continue the imposition of safeguard duty on imports."

In January 2020, Mundra Solar and Jupiter Solar filed and application seeking extension of safeguard duty by another four years. But DGTR believes one year extension is adequate for domestic industry to adjust positively. Solar manufacturers, however, believe that the two together —safeguard duty and

BCD — may get introduced from August 1, though the rate of BCD could be much lower than the 20% proposed initially.

## Adani Mumbai discom losses nearly double

**FE BUREAU** New Delhi, July 24

**ADANI TRANSMISSION, THE com**pany which runs the power distribution business in Mumbai, said its distribution losses in the three months ended June have widened to 13.5% from 7.8% a year ago. It has attrib-

uted the rise in distribution losses to lower revenue received as consumers were charged on provisional average billing as physical meter reading became a challenge amid the lockdowns to contain the outspread of the coronavirus.

The company said the distribution losses are subject to change after the recovery of payments from consumers after billing on actual electricity usage. Discoms had to resort to provisional billing done on the basis of historical trends. Collection efficiency—the proportion of revenue collected against revenue billed—fell to 72% from 95% a year ago. Adani said that being a regulated asset, there is no impact on the Ebitda margin of its Mumbai power distribution business. Total electricity sold by Adani's Mumbai discom in Q1FY21 fell 29% annually to 1.7 billion units.

Adani said the residential supply in its Mumbai distribution area in Q1FY21 comprised 73% of its total power sales in the quarter, up from 52% a year ago. Commercial and indus-

> 48% a year ago. The company also said that it is entitled to late payment surcharge for delayed payment by customers. Consumers across the country have complained about receiving higher electricity bills

trial usage fell to 27%, down from

after discoms started adjusting the charges based on actual power consumption after physical meter readings. Residential consumption was higher as people remained inside their houses throughout the lockdown periods with factories, shops and offices remaining shut.

Adani is the first company to report key parameters in the coronavirus quarter for its distribution business, which gives a rough idea of the woes faced by discoms in the lockdowns.

This reversal is

5 The Company continues to actively manage its business during COVID-19 pandemic and has not yet experienced significant changes on the business impact than estimated earlier. In assessing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, nothing has come to the attention of the Company through internal and external sources, which warrants a reassessment of carrying amounts of financial and non-financial assets on the expected future performance of the Company.

6 The above is an extract of the detailed format of Quarterly Financial Results filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing) Obligations and Disclosure Requirements) Regulations, 2015. The full format of the standalone and consolidated quarterly financial results are available on stock exchange websites (www.nseindia.com and www.bseindia.com) and on Company's website (www.zensar.com).

Date: July 23, 2020

Mumbai

accounted under other income.
